# ENDODONTICS FOR THE GP

2 DAYS

## COURSE OBJECTIVE

### LOCATION

1/20 Barcoo Street,  
Roseville, NSW 2069

**DATE** 30th-31st August 2024

**FEE** \$ 1800+GST

- Principles of endodontic diagnosis, including case selection and grading of case difficulty
- Science and protocols of chemo-mechanical preparation
- Hand-file design and their clinical influence
- Rotary system selection and their clinical influence
- Science and protocols of obturation
- The role of endodontic restoration

## TOPIC SCHEDULE

### Endodontic Investigation and diagnostic principles

- A systematic and comprehensive protocol in clinical assessment
- Grading of case difficulty, when to proceed and when to refer
- Anticipation of prognosis and communicational skills

### Extirpation and access design

- Variants in access design as according to the tooth type
- Scientific method of reproducibility in pain relieving
- Tricks in finding canals

### Chemo-mechanical preparation

- Understanding the properties of various hand files, what they are designed for, and how to use them properly
- Understanding the different rotary systems, the correct techniques/motions that needed to be followed in order to achieve a predictable clinical outcome, and how to avoid complications such as file separation
- How to select the appropriate system according to different clinical indications

### Obturation

- Understanding the different obturation techniques present today

### Prognosis

- Understanding how pre/peri/post- operative factors influence survival and success

### Endodontic restoration

- Understanding what & how different factors of the restoration can influence survival and success

### WHAT YOU CAN BE EXPECTED TO DO AFTER THE COURSE

- Management of dentition as according to the tooth type
- Management of the moderately calcified/curved canal
- Understanding of when and where to use different hand/engine driven files
- Basic introductory techniques for conservative ledge/broken file bypass and retreatment

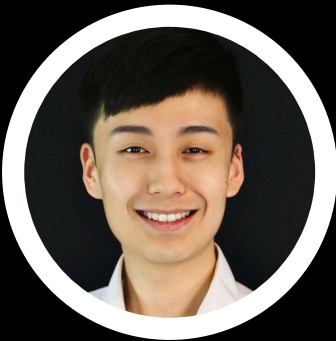

### EXAMPLE CLINICAL WORKS

**LEARNING  
OUTCOME**

# COURSE DIRECTORS

## Dr Thomas Kim

BDS (Hons), MRACDS (PDS), FIADFE, PG student of MSc (Endo)

Dr Thomas Kim graduated from the University of Queensland and has worked in various practices across Brisbane and Sydney as a general dentist and visiting dentist performing endodontic treatment. His unique exposure to microscopy dentistry in private practice since graduation has developed a strong passion in Endodontics. Dr Kim continued his academic studies in Endodontics, where he was admitted into the MSc program in Endodontics at KCL. He is currently serving as a lecturer and unit coordinator in Endodontics for the DMD students in USyd, where he enjoys providing supervision, mentorship, and lecture delivery. Dr Kim has also served as a past committee member in ASEQ prior to his move down to Sydney.

# Lecture Enrolment Form

Endodontics for the GP Lecture  
Date: 30th-31st August 2024
