Practice with different implant systems  
Implant Prosthetics and Impression Techniques

### DAY 3 - Implant Surgery

Medical History and implant Related Medication  
Basic Surgical Skills and Tissue Manipulation  
Suture Techniques  
Patient Factor and Case Selection

## HANDS-ON

CBCT Planning

Model Practice

Pigjaw Practice

**This course will teach you generic concepts of all implant systems rather than a cook-book to a specific implant system.**

# COURSE DIRECTORS

## DR HONG CHANG

BDS (Hons, Melb), MSc (Oral Implants, Frankfurt),  
DICOI, FICD, FASID, FADI, PostGradDip DigOrth

Dr. Hong currently works in private practice, focusing solely on implant dentistry. He is the co-founder and principal dentist of Experteeth Dental, which operates a chain of over 30 clinics across multiple states. He regularly lectures for various implant companies and trains dentists in implant surgeries. Recently, he became one of four Australian dentists to achieve Diplomate status from the American Board of Oral Implantology (ABOI/ID).

## DR BERWYN LIU

BDS, GradDipClinDent (Surgical Dentistry), FIADFE

Dr Berwyn is a partner dentist at Experteeth Dental and principal dentist at Elevate Dental Group. Driven by his profound passion for surgical dentistry, Dr. Berwyn undertook post-graduate training in the field and currently focuses his practice within implants, full-arch implant rehabilitations, wisdom teeth surgery and other minor oral surgery procedures. Dr Berwyn works in private practice and is actively involved in mentoring and teaching recent graduate dentists.
